

ELONBALLS

THE POKELON ECOSYSTEM ENGINE

Pokelon, and its upcoming sister token Elonballs, are BEP20 tokens that parody wildly popular trends in DeFi and Gaming culture and bring them to life as an interactive, NFT Collectible Card Game.

Holders have access to the Elondex, a comprehensive library of all currently-known NFTs and are eligible to win giveaways for these NFTs or trade them in the community.

..... *The History Of*

The Future

.....

\$POKELON launched on Pancake Swap on 05/11/21 to an extremely excited community of 1800+ early adopters on our Telegram. Since that time, The Pokelon Team has given away over 100+ collectible holographic NFT cards to holders and expanded the project towards its ultimate goal of allowing holders to battle their Pokelon in a digital collectible card game. To that end, on 07/21/21, we will launch the sequel token and staking platform, \$ELONBALLS.

POKELONOMICS

Token Type: BEP20

Total Supply: 1,000,000,000,000,000 (Quadrillion)

Presale: 400000000000000 (40%)

Liquidity Locked, Ownership Renounced
Anti-Whale, Anti-Bot

PRIMARY FEATURES

At launch, \$POKELON holders will be able to stake their Pokelon on the Pokelon dApp and receive \$ELONBALLS as rewards.

Within one week of launch, Elonballs holders will also be able to stake their tokens. NFT cards will also be available for long-term staking rewards for Elonballs holders.

STAKING

Physical NFTs are actual holographic playing cards with a QR code on the back that corresponds to the digital version of the NFT.

These cards can be obtained through any of the methods outlined in the NFT section below and all Legendary NFTs come with a physical counterpart.

PHYSICAL
NFTS

PRIMARY FEATURES

Elonballs has a built-in Buyback mechanism that allows for buyback of both \$POKELON and \$ELONBALLS. We'll be using this function, known as "Gyaradip", to offset any selling and keep the price stable.

The community will determine, by vote, whether these purchased tokens will be burned or locked.

BUYBACKS

Elonballs will feature an anti-bot measure that enforces a cool-down period between purchases.

Whales will also be discouraged by the considerable selling tax and a maximum purchase limit. Details to be announced at launch to prevent botting.

ANTIBOT
ANTIWHALE

PRIMARY FEATURES

Just like the Red & Blue counterparts of the beloved franchise that Pokelon parodies, Pokelon and Elonballs holders will have access to different sets of NFTs and will be required to trade or own both tokens if they want to collect all of them.

Holders of both tokens will be eligible to win Legendary Pokelon NFTs, the rarest NFT cards that the project will ever mint.

EXCLUSIVE
NFTs

Whenever the price of Pokelon or Elonballs doubles (2x), the community will gain access to a Moon Stone. Moon Stones are mysterious stones that can trigger an evolution in any Pokelon in the Elondex.

After the community votes on the next evolution, a new NFT Card will be minted for giveaway.

MOON
STONES

PRIMARY FEATURES

2% of the supply will go to the marketing wallet at launch, with an additional 4% of every buy and sell going towards marketing and development. Other projects run out of money for marketing in a week, we've taken steps to ensure \$ELONBALLS and the Pokelon System can go the distance.

SUSTAINABLE
MARKETING
WALLET

Elonballs ushers in the first iteration of the Pokelon dApp. Development funds will be used to expand this dApp to include a custom Elondex of all NFTs the holder currently owns.

The final iteration of this technology will determine the cards the holder currently has in their connected wallets, which will be available for play in the digital version of the collectible card game.

NFTS

NFTs are the way Pokelon and Elonballs Trainers interact with the Pokelon universe. There are currently two separate types of NFTs, Gym Badges and Cards.

GYM BADGES

Gym Badges reward holders in the Pokelon community who go above and beyond to promote the project or meet certain requirements. These can be obtained by filling out a form on the official site and are rewarded every 48 hours to eligible applicants.

CARDS

Cards are the primary form of NFT and allow holders to win collectible NFT cards that will be playable in the future.

Cards can be acquired in a number of ways, which are detailed on the next page.

How To Catch Em

NFTs are the way Pokelon and Elonballs Trainers interact with the Pokelon universe. There are currently two separate types of NFTs, Gym Badges and Cards.

#1

Encounters

Twice a week, the Pokelon Community is notified that a new Pokelon will be encountered at a specific date and a time posted to the Telegram and Official Pokelon site.

At that time, a form is posted for 3 minutes. And any applicants who enter are eligible to win the NFT by random draw.

#2

Mystery Eggs

Every week, a new Mystery Egg is “incubated” and given a specific hatch date.

Unlike the flash giveaway nature of Encounters, holders are given a full week to enter into the giveaway.

How To Catch Em

NFTs are the way Pokelon and Elonballs Trainers interact with the Pokelon universe. There are currently two separate types of NFTs, Gym Badges and Cards.

#3

Booster Packs

Much like real-life collectible card games, holders of Elonballs can greatly increase their collection of Pokelon Cards by winning or purchasing Booster Packs.

Each booster pack contains 18 randomly selected Pokelon cards with at least one guaranteed holographic card.

#4

Legendary Encounters

Available only for holders of both \$POKELON and \$ELONBALLS. Legendary encounters are held at random and allow holders to win one extremely rare Pokelon Card.

Every Legendary NFT comes with a complimentary Physical NFT Counterpart.

CLOSING

The Market Crash of May 2021 affected a great deal of incredible projects in Decentralized Finance. Thankfully, Pokelon was blessed with a dedicated community that saw our vision and allowed us the opportunity to march forward.

With the launch of Elonballs on 07/21/21, we look forward to introducing an entirely new audience to the wonderful world of Pokelon. We hope that you'll join us as we bring the world one step closer to the internationally shared dream of being able to beat the shit out of one another's cryptocurrency culture icons in card form.

-The Pokelon Finance Team
